BS 2.96

Burrell & Son,
Glasgow.

Boiler survey due February 1897.

The Owners state that the vessel is at present on passage from China to the U.S.A. and will no doubt load home to this country from there, in which case the survey will be attended to on her arrival at Glasgow.

In March 1896 the vessel was allowed to remain as classed subject to a shoe plate being fitted on the keel and fore foot and the stern bush being attended to at the next dry docking.
