Wood Sch "Dione" built at Appledore by Messrs Cock & Sons.

Appledore Report No. 2529

It is submitted, that before this case receives consideration, the Surveyor should be requested to state the number of floors of English Elm in the vessel and where they are situated; to what extent larch top timbers have been used; and the height to which English Elm extends in the Deadwood (see Note (a) Table A). Also he should state whether the vessel has been salted in accordance with the requirements of Section 37.

The Surveyor should be informed that to entitle the Vessel to the Fig. 1 for equipment the Anchors, Cables, Hawsers & Warps must be in accordance with Table 22.
