This is to certify that the undersigned A D Brown. Engineer,  
acting in the absence of G. Wheatley, Loyd's Surveyor, did  
examine the boilers of the S.S. Strathleven of Glasgow,  
2436 tons gross, found same in splendid condition, and fit  
to carry a working pressure of 160 Lbs per square inch.

Donkey boiler to carry a working pressure of 45 Lbs per  
square inch.

Signed
