

SAINT JOHN'S NFLD.

OCTOBER 4 1898.

S.S.STRATHLEVEN.

This is to certify that the undersigned James Angel,
Engineer,did survey the tunnel shaft,and found a crack,
developing in fifth length of tunnel shaft,as follows.

Beginning about 3" aft of journal,and running diagonal
about $1\frac{1}{2}$ ",then longitudinal about $4\frac{1}{2}$ ",at this point
another diagonal fracture shows $1\frac{1}{2}$ "long,the longitudinal
fracture continues another $1\frac{1}{2}$ ",then another diagonal
fracture 2" long in the same direction as the previous
one.

The engineer reports,that Loyds Surveyor reported
on this crack some time ago.

Signed.

James Angel
