Report

Hull

No. 9911

For the CHIEF SURVEYOR and ~~CHIEF ENGINEER SURVEYOR~~

(In cases which have to be submitted to the Classing Committee the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement. — Extract from Sub-Committee's Report 24.5.92.)

Nature of Survey

Decks

~~When due~~

The S.S.No.1 was held at Hull in September 1894, and then notation assigned subject to the deck which was worn thin, being renewed within 9 months from that date.

The case received the consideration of the Committee on the 6th March last, and was deferred for a month to enable the new deck to be laid, the material for which it was stated had been ordered.

In reply to enquiry the Hull Surveyors now state that the Owners propose to commence the renewal of the deck on the 14th of May next.

It is submitted this proposal merits approval and in the meantime the class might be allowed to remain undisturbed.
