Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

3rd August, 1932.

Dear Sirs,

E. I am in receipt of your letter of the 29th ultimo respecting the machinery survey of the Motorship "LIZZIE & ANNIE" and note that the Owners have decided to fit a new engine into this vessel.

With regard thereto I have to acquaint you that there is no note in this Office of the Engine No. 2114/6934 made by Messrs. A/B Svenska Maskinverken in February last having been built under the Society's inspection, but I await further information from you as soon as you receive a reply from the Stockholm Surveyors in the matter.

If it is found that the engine has not been built under Special Survey, particulars thereof should be forwarded to this Office for consideration, and I have to say that provided the working parts be opened out and be found in good condition and in accordance with the Rules, and the sizes of the shafting be such as could be accepted, a notation of LMC (with date, but without the distinguishing mark *) could be recommended.

I am, Dear Sirs,
Yours faithfully,

The Surveyors,

HULL.
