

tract from Hull Classing Letter dated 23.2.54.

"LIZZIE & ANNIE". Before your Report No. 60034 receives the consideration of the Committee, it is noted that the air receivers have not been examined at this time, and I shall therefore be glad if you will confirm that all Rule requirements for a Modified Survey have been carried out on this occasion, in view of the fact that you recommend a fresh record of LMC (M) 2,54.
