

Sent to Chief Surveyor

Received from Chief Surveyor

24/1/91
VESSEL'S NAME

Baknin

Report

Rpl No. 8283

The remarks of the Chief Surveyor are desired on this Case for the consideration of the Classing Committee.

It is submitted that all necessary repairs having been satisfactorily executed and the vessel being now reported to be in sound & efficient condition, she appears worthy the favourable consideration of the Committee to remain as classed, viz: 100 A1 with great date of Survey 1-91 recorded in the Register Book, as recommended.

With reference to the patent Enamel (Boys') Cement, the condition of which could not be ascertained owing to the tanks being full, it is further submitted that an examination of the Cement, as per Circular 663, should be made at the first favourable opportunity.
