Dear Sirs,

Referring to your representative's call here in connection with the overdue survey of the s.s. "Bakuin", we shall be much obliged if you will kindly postpone bringing the matter before your Committee until next week. We have tried to see the Time Charterers and ascertain the future movements of the ship; their principal is out of town, however, and will not be back till Monday, when we shall have an opportunity of seeing him.

Trusting you will accommodate us in this matter.

Yours faithfully,

For
