February 21st 1893

Messrs the Surveyors
Lloyds Registry
Newcastle

Dear Sirs,

"Baku Standard" - Classification certificate.

We regret to find on looking over this that the oil hatch is not shown correctly on the midship section. If you will kindly refer to the tracing we sent you on the 12th of July/92 (No 7688,) you will find that we show an arrangement of cargo hatches with the oil doors arranged on the top, which arrangement was carried out on board the vessel.

We return you the certificate, and shall be obliged if you will kindly correct it in this particular, and return it to us.

We remain, Dear Sirs

Yours truly

For

SIR W. G. ARMSTRONG, MITCHELL & CO. LIMITED;

Edwin. L. Lunde.
