Sent to Chief Surveyors

2306

Received from Chief Surveyors

VESSEL'S NAME

S.S. Baku Standard Report

Hwe No. 48001

**For the CHIEF SHIP SURVEYOR and CHIEF ENGINEER SURVEYOR.**

(In cases which have to be submitted to the Classing Committee the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case so that the Classing Committee may have all the salient points presented in the endorsement." - Extract from Sub-Committee's Report, 24.5.92.)

Nature of Survey

S.S. No. 3

When due

205

The S.S.No.3 became due in February 1905, and some damage through ice reported by the Newcastle Surveyors in March requires to be permanently repaired when the Special Survey is held.

A proposal of the Owners Superintendent to complete the survey within the year of grace was approved in November 1905.

The Owners now state in reply to enquiry that owing to the vessel's chartering engagements they regret they will not be able to carry out the survey until the end of April, which they trust will be satisfactory to the Committee.

This proposal is submitted for the consideration of the Committee.
