

Bk. "PAMIR"

2nd Special Survey No.2 due May, 1932.

It is submitted it be pointed out to the Helsingfors Surveyor that the shell plating requires to be drilled at this Special Survey, and he should be asked to state at what port it is expected the drydocking part of the survey will take place.

Particulars of the vessel's scantlings should be prepared, and forward to the Helsingfors Surveyor for his guidance should the drilling of the plating above the light water line be carried out in his district.
