

Lloyd's Register of British & Foreign Shipping,

Collingwood Buildings,
Newcastle-on-Tyne.

Reference

26th Oct. 1904.

Dear Mr. Cornish

I saw Mr. Dixon
Brown at Newburn
yesterday with reference
to your letter of the 24th.
Inch concerning experiments
to determine modulus of
elasticity of high tensile &
mild steel and he has
agreed to have this done

as you desire.

The experiments on the 1"
plate will be completed
today and if they satisfy the
conditions laid down they
will take a strip from each
side of this plate & a strip
from each side of a 1" mild
steel plate & send them to
Messrs Kitchin.

The mechanical test on
the 3/8 x 10/20 high tensile will
be completed today & I will
report on same as also on
the 1" plate as
