Dear Mr. Cornish,

CUNARD EXPRESS STEAMER No. 735.

On looking through our correspondence I have been unable to trace your reply to my private letter of the 12th of September last relating to the bars connecting the longitudinal to the athwartship watertight bulkheads.

I am under the impression that you replied and agreed to our fitting single bars 5 x 5 x 12/20ths in lieu of double bars 3½ x 3½ x 10/20ths. Would you kindly refer to the correspondence and if I am right in this matter, would you kindly send me a copy of your letter for reference. There may have been a mutual verbal understanding between us, but I think that you committed it to writing to this effect.

Yours faithfully,

W. De Fusett
