Dear Sir,

CUNARD EXPRESS STEAMER No. 735.

We beg to acknowledge the receipt of your letter of the 30th ult., covering the plans as advised.

We are pleased to observe that you approve of the arrangement of semi-box beam for stiffening bulkhead on No. 74 frame. We will efficiently stiffen the upper edges of the partial bulkheads on frame 84 which we note will then meet with your approval.

We have to thank you for your suggestion with respect to the corners of the engine casing at the shelter and upper decks about which we will write you further.

We beg to return the plans duly noted, with the exception of the blue print showing the suggested treatment of the corners of the openings of the engine hatch which we are retaining for further consideration.

Yours faithfully,

For

SWAN, HUNTER, & WIGHAM RICHARDSON, L<sup>TD</sup>
