

Steel Bk. "PASSAT".

built 1911
——— (ex German)

It is submitted the Marseilles Surveyor should be informed by telegram that in order to render the vessel eligible for reclassification in the Society's Register Book the plating must be chipped and scaled as recommended by him for complete examination, and the full requirements of the Special Survey No. 3 must be carried out, including such drilling as may be considered necessary.

He should inform the Owners or their representatives that unless his recommendations are complied with he must withdraw from the survey.
