

FREEBOARD REPORT on the Sailing Vessel "Passat".

It is submitted the London Surveyors be informed that in order to comply with the Convention requirements the following will require to be done:-

1. Efficient means of closing ^{hatches} being provided for all ventilation ^{hatches} if this is not already the case.
2. fitting for lashing ^{hatches} being provided for No 1 hatchway.

The surveyors should further be informed that upon receipt of particulars of sheers, the case will be completed & freeboards assigned. They should also be informed that the freeboard area is less than as required by the Convention, but that in the event of the existing freeboard being reassigned the present area could be accepted.

Return Report to London Surveyors for completion of page 1.
