With reference to recent correspondence on the above
s in which you are informed that the Owners have agreed to
s the vessels with this Society, I have to advise you that,
day last, the Company's Secretary visited me in this Office
ated that it had been decided not to reclass the vessels
his Society.

I visited the vessels at Kiel yesterday with the
ary and the Representative of the Owners and found that the
ideration had been due to certain officials at Howaldtswerke A.G.
informing the Owners that the requested plans would require six
ht weeks for approval.

The matter has now been cleared up and the vessels will
lassed with this Society.

This is an indication of the necessity, in the Society's
st for retaining plan approval in Western Germany.
