Dear Sirs

S.S. "Amrie"

Referring to your favor of yesterday
respecting the discharge pipes and doubler pipes
I can only say that they were fitted in this
way when the ship was built and she is
now 19 years old and we have never had any
accident in any way caused by these pumps
but as it is your rule or wish we will make
the alterations in a week or two as soon as ever
I can spare time after getting the other ships
finished.

Yours truly

H. H. H. H.
