reference

Dear Mr. Hill,

Yours of the 14th instant to hand this morning respecting the Steamer "STETTIN", and by now you will probably have received our letter of even date, in the last paragraph of which we inform you that I have made arrangements to get the necessary examination on the boiler carried out when the vessel returns to Leith which in all probability will be within a week's time.

With reference to the completion of the 5th Special Survey No. 2 which expires at the end of next month, I would be much obliged if you would kindly get this held over until the new main and donkey boilers recently ordered from Messrs. Hawthorns & Co.; but owing to recent events will now have to be transferred to another firm; have been built and ready for fitting aboard, when survey and additional repairs will be carried out.

This work I hope will be carried out not later than the end of September next.

Thanking you for your kind attention.

With kindest regards,

Yours sincerely,

J.P. Hill Esq.,
LONDON.
