

JOHN HAUG,

S. Mechanical Engineer and Marine Architect.

208 Walnut Place (Room 7).

LLOYD'S REGISTER,  
LONDON.

RECD 7 APR 92

ANSR

Sir

Philadelphia, March 28 1892

In regard to the letter written by me to Mr. Keyes, reporting on S. S. "Mineral", have to state, that Mr. Keyes is in charge of the Foreign Shipping department of the Standard Oil Co. of New York, and had chartered this vessel to take cargoes of Petroleum in Bulk to Vera Cruz. Before accepting this vessel he wished to be reasonably sure, that her oil tanks were tight, and requesting me to examine the same, I did so, as reported in my letter, of which I sent You a copy.

As the vessel had received no damage, and no special or periodical Survey being due, I did not think it necessary, to make any other Report on the Case.

A. J. Dryhurst  
London

respectfully Yours  
John Haug  
Surveyor.

Referred to Chief Surveyor
