S.

16th November, 1892.

Dear Sirs,

With reference to the classification in this Society's Register Book of your BR."THERMOPYLAE", I beg to acquaint you that report has recently been received from the Society's Surveyor at Hong Kong, from which it appears that the Special Survey required by the Rules has been carried out at that port.

The Surveyor reports, however, that the maindeck was bored and found to be less than 3" in thickness and therefore requires to be renewed, and I have to state that the Committee have deferred action on the case until this has been done.

I shall be glad to learn in due course when and at what port you propose to have the deck renewed as recommended.

I am, Dear Sirs,

Yours faithfully,

Secretary.

Messrs Hall Ross & Co.

Victoria,

B.C.
