Dear Sir Ronald,

At their last Meeting, the Trustees of the National Maritime Museum learnt with great pleasure and appreciation of the generous support and practical help which you and the Committee of Lloyd's Register of Shipping have afforded to the project for preserving, as an historic monument, the famous old clipper ship, "Cutty Sark," of London, by undertaking, free of all cost, a preliminary survey of the vessel as she lies afloat; and also by making freely available to the Committee set up by the London County Council, the great benefit of the services of Mr. J.M. Robertson, your Senior Ship Surveyor.

By unanimous resolution of my Trustees, I was directed to write to you to express their sincere thanks for this very valuable help and encouragement; and they would be grateful if you would kindly convey this expression of their gratitude to the members of your Board.

Yours sincerely,

Director.
