

13th June, 1953.

As arranged with the C.S.S. I attended a meeting of the Technical Committee of the "Cutty Sark" Preservation Society at Buckingham Palace on Friday, June 12th, 1953, with His Royal Highness The Duke of Edinburgh presiding.

The agenda included such matters as further examination of structure at present underlying sand ballast and old wood ceiling, and when access has been arranged it is requested that the condition of the floors, etc. be made the subject of a statement to the Technical Committee by Mr. C. Blake and myself. This and corresponding duties may occupy some time and Mr. H. Barraclough, Chairman of the Preservation Society has informed me that he will discuss the matter with Sir Ronald Garrett.
