7th February 1905.

Gentlemen,

I have to acquaint you that to complete the survey partly held at Philadelphia in December and January last on the boilers of the steamer "NEDERLAND", the safety valves of the donkey boiler require to be adjusted under steam. The vessel appears to have arrived at Antwerp on the 31st ultimo and it is understood that the inspection in question will be completed at your port.

I have therefore to request that you will give the case the necessary attention.

I am, Gentlemen,

Your obedient Servant,

Secretary.

The Surveyors,

Antwerp.
