and Foreign Shipping.

13. Hamilton Street, Greenock.

th
9th Dec^r 1890.

Sir.

With reference to your letter of yest^{ds}
date, and its enclosures, relating to the
case of the S.S. "Strathleven", I have to
state that the bottom of this vessel was
sighted on Monday the 24th Nov^r last,
while being recoated.

A slight flatness was observed in
the bottom, just abaft amidships; but
the plating, and the caulking of the butts
and landing edges, were found to be in
good condition, and perfectly dry; and
no signs of any weeping whatever, was found
in any of the rivets. The bottom was in my
opinion in a satisfactory condition.

The vessel was taken out of dock by the
same night's tide.

I am Sir

The Assistant Secretary.
London,

Your obedient servant
