

"ARANDORA STAR".

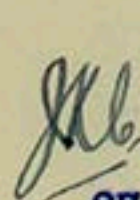

It is proposed to carry out certain alterations to the erections at the forward end of this vessel, and these alterations have been entrusted to Messrs. Palmers Hebburn Co.Ltd., who forward the following plans, in triplicate :- 'D' deck extension, 'E' deck extension, anchor crane, companion, and extension to forecastle deck and side framing.

It is submitted the Builders be informed that the scantlings and arrangements as shewn and amended will be approved, provided they be carried out to the satisfaction of the Society's Surveyors.

It is observed that the Owners desire that the construction of the proposed extension shall be of a light character only, and not of similar scantlings to those of the erection to which it is to be joined, and further that the Owners are averse to disconnecting the new structure from the existing erection as previously suggested.

The equipment will not be affected on account of the proposed alterations.
