REPORT ON MASTS, SPARS, AND RIGGING.

Dear Sirs

Having, in accordance with your instructions,
 examined the Masts, Spars, Iron Work of same, and Rigging, of the
 (Name of Vessel) SS Arandora Star
 on the (Date of examination) 22/11/38 1938,

I have to report that I found

Referring to the Fore Rigging in the above
 report, I understand that owing to the
 structural alterations in progress, it will
 be necessary to shorten the rigging about
 9 or 10 ft., as this will cut off the wasted
 ends. I have recommended the shrouds to
 be cut and refit.

H. D. Pearson
