Enclosures.

17th October, 1932.

Dear Sirs,

S. I have to acknowledge the receipt of your letter of the 10th instant forwarding a translation of a letter received by you from the Registro Italiano respecting the new steamer "REX", and in compliance with the request contained therein I enclose herewith a photographic copy of the report of survey recently carried out on this vessel by the Society's Surveyor at Gibraltar.

In handing over this report to the Registro Italiano I have to request that you will point out to them that the Gibraltar Surveyor has made it quite clear that the statement regarding the causes of the breakdown is as was stated to him, and is not an expression of his opinion as to what actually occurred.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

GENOA.
