23rd March, 1931.

Dear Sirs,

I duly received your letters of the 17th and 20th instant, relative to the s.s. "CONTE DI SAVOIA", Cantieri Riuniti dell' Adriatico's Yard No. 783, and the contents have been noted.

With regard to the sketch forwarded showing the automatic valve proposed to be fitted to galley refuse discharge pipe, I have to state that it is considered this valve should be a screw down non-return valve operated either from D deck, or from a position on E deck which is always accessible.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

TRIESTE.
