26th August, 1936.

The Surveyor,  
Lloyds Register of Shipping,  
Barrow-in-Furness.

Dear Sir,

T.S.S. "AWATEA" - NO.707.  
SURVEY FEES.

We acknowledge receipt of your letter of the 28th July, enclosing supplementary account for survey fees in respect of the turbo-driven electric generators in the above vessel.

We understood that the fees for surveying the turbo electric generators were included in the main fee for the machinery, and as this appears to be in agreement with the fees paid in similar cases in the past we ask that the matter may receive further consideration.

Yours faithfully,

For VICKERS-ARMSTRONGS LIMITED,

*E. J. Davis*
