

t.s. "AWATEA".

Renewal of main gearing.

It is submitted the Barrow Surveyors be informed that for the machinery of the above vessel, the plan No. 2522A/81B.G. of pinions and gear wheel forgings merits approval.

It is noted that the S.H.P. of the H.P. and I.P. turbines is to be 3487 each and of the L.P. turbine 4275, instead of H.P. and L.P. 3500 each and L.P. turbine 4250 as originally.

Return plan.

Request copy for reference in this Office and 1 copy for the use of Sheffield Surveyors.
