Received from Chief Ship Surveyor

VESSEL'S NAME

*Lu de Filurian*

Rpt.

*Off*

No.

*30663*

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Nature of Survey

*Condition*

This vessel has been examined in dry dock, the bottom cleaned and coated. One shell plate on the port side of forward hold was found to be set in and one frame bent, and it is proposed to deal with these at a more convenient time. The Surveyors are of opinion that this proposal merits approval.

It is submitted the vessel might be allowed to remain classed with record of survey, subject to the indented plate and frame being dealt with as recommended.
