NAPLES.

With reference to the sequestration at this port of the steamer "PHILADELPHIA" of the New York S.S. Co., I beg to inform you that so that the steamer may be able to go to sea with Lloyd's Register class it is necessary that the survey of the Hull, Machinery and Boiler be held.

I inform you of this so that you may know the position of the "PHILADELPHIA" as regards this Society should the steamer be put up for public auction.
