

S.S. "WARATAH"

The Surveyors who surveyed the "WARATAH" during construction at Messrs. Barclay, Curle & Co.'s yard at Glasgow were Messrs. A.B.Harris and J.McIlvenna. These Surveyors state in the First Entry Report that the vessel was built in accordance with the approved plans and in general conformity with the Rules for the class contemplated. The detailed particulars given by them on the First Entry Report are confirmatory of their general statement.

It is submitted, however, having regard to the enquiry by the Solicitor to the Board of Trade, that it would be desirable these Surveyors should be written to and asked to formally state in a letter whether the vessel was built in accordance with the plans as approved in this Office, and in all other respects in accordance with the Society's Rules in force at the time she was built.

Ln to Sec. 13/5/10.
