

"LAGO AZUL"

As, in accordance with the Convention, the Registro Italiano is a recognized Classification Society, and in view of the Philadelphia Surveyors' recommendation, and of the examination held in drydock by the American Bureau Surveyor in October, the New York proposal to issue Panamanian Load Line Certificates valid until 30th November next was considered reasonable, and the New York Office was advised accordingly on the 15th December.

In view of the requirements new set forth in the Classification endorsement dated 15th December, it is submitted the New York Office be advised that no further Load Line Certificate can be issued by the Society unless the requirements for Classification are complied with, or at the Renewal Survey in October/<sup>November</sup>~~October~~ next, the Surveyor satisfies himself generally with the condition of the ship.
