

Lloyd's Register of Shipping,

342, Argyle Street,

Glasgow 20th Nov 24

Dear Mr Watt.

The "S.S. Caria" ex
 "Laqar" the electrically welded
 built by Cammell Laird
 been undergoing repairs

There is a proposal
 send the vessel to Vancouver
 although she has a
 crew assigned she has,
 you know, a special notation
 imminent.

I will be obliged if you will

let me know if any objections
 will be taken to her present harbour
 in the event of her proceeding to
 Vancouver in view of the nature
 of the special notation.

I might point out that the
 vessel has engines aft which
 consequently turns her by the
 stern

If you think there is anything
 in this I will have the
 information sent in to you
 officially if you wish it

Kind regards

W. Watt Esq
 London
