

Lloyd's Register of Shipping,

1, Anton Graffstrasse,

Winterthur, 17th February, 1936.

s.s. "Conte Rosso".

Loeffler Boiler & Escher Wyss Turbine Installation.

Dear Sir,

I enclose herewith Winterthur 1st Entry Report No.135 covering the turbines for the above installation. Also please find attached Winterthur Report No.F.867 giving the tests of the forgings, the makers' test sheets for the circulating pump shaft and cast steel casing for circulating pump turbine.

I have also forwarded under separate cover the following plans received from the Trieste Office:-

- Plan No.264142. Turbine casing for circulating pump.
- - 264153. L.P. turbine casing.
- - 264249. Gear casing.
- - 264318. Feed pump turbine rotor.
- - 264370. H.P. turbine rotor.
- - 264371. L.P. turbine rotor.
- - 264434. Gear wheel shaft.
- - G11826. Pinion and shaft.
- - G11827. Gear wheel.
- - 264123. H.P. turbine casing.
- - 264124. -do-
- - 264484. Circulating pump shaft and turbine rotor.
- - 264559. Gear wheel shaft & torsion shaft for measuring.

I shall be obliged if you will forward these reports and plans to the Surveyors at Trieste for their information and completion.

I am, Dear Sir,

Yours faithfully,

The Secretary,
London.
