Fabbrica Macchine S. Andrea

Trieste, 5th September 1935

UT/10243/4

Messrs. Lloyd's Register of Shipping

TRIESTE.

s.s. "CONTE ROSSO". - Löffler-Facher-Wyss Installation

Rewriting to our letter of 27th ultimo UT/9806/4 we are now informed by the Registro Italiano and British Corporation, in reply to a similar note addressed to them, that they have prepared a detailed programme of tests on materials and welds, which they desire to discuss and make to agree, by arrangement with the ~~metallurgical~~ metallurgical Engineers of Messrs. Witkowitz, with that already communicated by your London Headquarters to your Vienna Office.

It would therefore be necessary to arrange for a meeting of the representatives of the three Societies to be held, as proposed by Messrs. Witkowitz, at their works.

If you are agreeable to this arrangement, kindly let us know the date on which the meeting could take place, after discussing the matter with the local office of the R.I., who have already signified their acceptance.

Yours &c.

Cantieri Riuniti dell'Adriatico  
Fabbrica Macchine S. Andrea  
(Sgd) Mrazek (Sgd) Cibele.
