71, Fenchurch Street, E.C. 3.

24th March, 1936.

Dear Sirs,

E. With reference to your letter of the 12th instant, with enclosed certificate issued by the Society's Surveyor at Stettin relating to a feed water regulating valve for the Loeffler boiler installation for the s.s. "CONTE ROSSO", I have to inform you that from enquiries made of the Stettin Surveyor, it has been ascertained that the material for this valve was not tested by him, and, moreover, it was made at a Works not recognised by this Society.

In all the circumstances it is not considered that the Society can undertake any responsibility regarding this steel casting, which, therefore, cannot be accepted.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

TRIESTE.
