

s.s. "CONTE ROSSO".

Loeffler Boiler and Escher Wyss Turbine Installation in  
conjunction with existing turbines.

-----

IT IS SUBMITTED the Trieste Surveyors be informed  
that with Escher Wyss high pressure turbines in conjunction with  
the existing turbines, developing a total S.H.P. not exceeding  
13000 at 96 R.P.M., diameter of propeller 6100 mm., the sizes  
of the existing shafting, as stated in the Surveyors' letter,  
are such as could be accepted.
