

GLASGOW,

30th December, 1924.

GEO. WEBSTER,

Messrs. The Fairfield S. B. & E. Co., Ltd. attend on board the M. V. "AORANGI" on the 10th October and 17th November, 1924, for the purpose of witnessing tests carried out on the MacLachlan Automatic Boat Davits.

One set of davits was subjected to a static test equivalent to the weight of the fully equipped boat load plus 30% overload. The remaining davits were subjected to a test of a weight equivalent to the fully equipped boat plus 10% overload together with a surging test.

These tests were carried out with satisfactory results.
