Lloyd's Register of Shipping.

Port GREENOCK.

12th March, 1931.

This is to Certify that

W.M. GORDON MINCHIN

the undersigned Surveyor to this Society did at the request of
Messrs. John G. Kincaid & Co., Ltd., Engineers and Boilermakers,
Greenock, survey during construction Two Steel Air Reservoirs
intended for their Engine No. K.67 - Messrs. The Greenock
Dockyard Co's No. 422 - M.S. "BRITISH ENERGY".

The scantlings are in accordance with the Rules
for a working pressure of 356 lb. per square inch.

The material has been tested by the Surveyors to
this Society.

These Reservoirs were tested in the presence of the
undersigned to a hydraulic pressure of 556 lb. per square inch,
and found tight at that pressure.

The working pressure should not exceed three
hundred and fifty-six pounds.

Mark on Reservoirs.

No. 2008.
LL YD'S TEST 556 lb.
per sq.inch.
W. P. 356 lb.
W. G. M. 12/3/31.

FEES - £8/-

W.M. Gordon Minchin
Surveyor to Lloyd's Register,

GREENOCK

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:-

"While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."
