

s.s. "DARIEN", 4281 tons gross. Owners : Balboa Shipping Co.

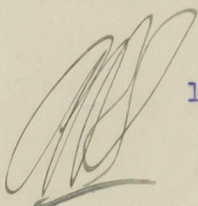

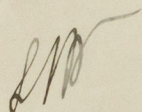

This vessel was under survey by the Belfast Surveyors for damage and alterations from 21st November 1929 until the 11th instant.

During that time the vessel was lengthened by 27'6", the machinery and the whole of the seatings in the machinery space and motor room aft removed, new seatings built and new machinery fitted.

For the survey of the hull the Surveyors propose charging a fee of 70 guineas, and desire to be informed if this is considered suitable.

It may be stated that the fee for the survey during construction, and the fitting on board, of the new machinery amounts to £229-1-0, plus £16-4-0 travelling expenses.

The fee of 70 guineas for the survey of the hull suggested by the Belfast Surveyors would appear to be suitable, and it is submitted they be informed to that effect.
