

s.s. "ALBATROSS"

Mr. Collinson telephoned from Torquay this afternoon to say that the Owners' Superintendent had informed him he was of the opinion that practically the whole of the hull survey had been carried out in this case, and that if Lloyd's Register were going to insist on the survey being re-held he might have to recommend to his Owners to transfer to B.C. class.

Incidentally it appears that the Owners' local consultant is also the local Non-Exclusive B.C. Surveyor.

I informed Mr. Collinson that the survey held by Mr. Lloyd Roberts took place two years ago and that he should abide by the instructions sent him on the 25th instant.

  
29th November, 1948.
