UNITED WITH THE BRITISH CORPORATION REGISTER

71, Fenchurch Street, London, E.C.3

Telegrams: Committee, Fen. London

Telephone: Royal 3551 (6 Lines)

17th August, 1951.

Classn. (H)

Dear Sirs,

s.s. "HOMELAND" ex "BRASIL". RMC.

I have to acquaint you that RMC classification reports relative to the above named vessel have now been received from the Genoa Surveyors and as a result the vessel will be eligible for the notation of Lloyd's RMC 5,51 "to maintain temp. 14<sup>0</sup>F with sea temp. 86<sup>0</sup>F max" when a satisfactory cooling down test has been carried out. For this test all four insulated chambers should be reduced simultaneously to a temperature of not less than 10<sup>0</sup>F.

It is understood that the Owners propose to carry out this test at your Port during the period 10th to 15th September and I shall therefore be glad if you will give the case the necessary attention.

Yours faithfully,

Clerk to the  
Classification Committee.

The Surveyors,  
HAMBURG.
