# Lloyd's Register of Shipping.

D.463.

Port OF BARROW-IN-FURNESS.

4th FEBRUARY, 1943.

This is to Certify that

D.L.H. COLLINSON

undersigned Surveyor to this Society did at the request of

Burners, Vickers-Armstrongs, Ltd., attend their works at Barrow  
on the 4th February, 1943, for the purpose of examining and  
testing of one By-Pass and Relief Valve Body for Electric  
Hydraulic Steering Gear intended for the S.S. "ASCANIA". (6777.B)

This Valve Body was tested by hydraulic pressure  
of 2000 lbs. and found satisfactory.

For identification purposes it has been stamped:-

Lloyd's Test

2000 lbs. " "

4. 2. 43.

Surveyor to Lloyd's Register.

10s. 6d.

issued upon the terms of the Rules and Regulations of the Society, which provide that:-  
The Surveyors of the Society use their best endeavours to ensure that the functions of the Society are properly  
performed and understood that neither the Society nor any Member of any of its Committees is under any circumstances  
responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any  
other publication of the Society, or for any error of judgment, default or negligence of any of its  
Surveyors, or the Surveyors, or other Officers or Agents of the Society.
