Vessel's Name:

QUESTION.

With reference to your letter of the 22nd March last, I shall be glad to learn whether you are now in a position to furnish me with the desired information in regard to the alternative means of water circulation for the refrigerating installation.

L.R.

ANSWER.

Date:— 16th August, 1950.

I wish to inform you that the vessel did not drydock at Durban as was originally intended, whereby the alternate means of water circulation for refrigerating installation could have been ascertained. It has been stated by the owners representatives that the vessel is now trading solely on the Burma Coast and her survey will presumably be carried out in India.
