LLOYD'S REGISTER OF SHIPPING,
95, BOTHWELL STREET,
GLASGOW, C.2.
7th January, 1944.

Sir,

The Twin Screw "LADY CONNAUGHT" is being fitted out as a
ital Ship. It has been decided to raise the freeboard deck to the
rstructure deck by filling in the forward and aft wells and fitting
ed steel doors in the ships' side in place of the present gangway
s. It will be noted there is a difference in height between the
castle and bridge between decks.

I shall be glad to be informed what increase of draft may be
wed and also the scantlings of shell, decks, etc., for the structure
ing in the wells.

It is proposed to close the hatchways by plating them over with
exception of the portions to be fitted as steel companionways.

I shall be glad to have a copy of the midship section and
ile for reference purposes.

I am, Dear Sir,
Yours faithfully,
(Sgd). C. R. WILLIS.

Secretary to the
Glasgow Committee.

Secretary,
OKINGHAM.
