Hul.28240

S.S. "RAY"

This vessel's machinery has been constructed under Special Survey with a view to classification.

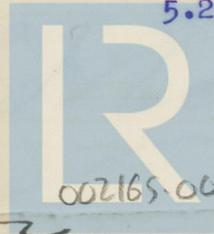

The Hull Surveyors report that the survey has been completed with the exception of the adjustment of the donkey boiler safety valves under steam, which matter was overlooked before the vessel left. The Surveyors are in communication with the Owners as to where this matter can be attended to.

It is submitted that action in the meantime might be deferred.
